Professional Experience

RSign (Current Project)

Digital Signature Platform (Ongoing)

March 2024 — Present

- Web-based digital signature platform for securely uploading, signing, and sharing documents.
- Designed clean, user-friendly and responsive interfaces that improved clarity and reduced user confusion during document signing flows.
- Simplified the document signing flow to make it easier for users to complete.

RDocs

Digital Document Security Platform

January 2023 — Present

- A secure document management platform for uploading, sharing, and controlling access.
- Designed user interfaces for document upload, sharing, and activity tracking.
- Improved permission clarity to help users manage confidential documents safely. Streamlined document workflows to reduce user effort and improve task completion.

RSign Signer

Recipient-Facing Digital Signature App

December 2023 — April 2024

- Recipient-facing web application that allows users to review and sign digital documents online.
- Designed a simple, step-by-step signing experience for web and mobile.
- Simplified signing steps to reduce friction and increase completion rate.
